● React • Vanilla JS • CSS Architecture

● Performance-First UI systems

Technical Expertise

- Pixel-perfect, modern UI
- Fast Analytical Mindset
- Lightning-Fast Speed

Available for freelance projects & junior developer roles.

ABOUT

Front-End Developer

I build performance-driven, scalable user interfaces with clean UI architecture. My approach blends modern design sensibilities with production-grade engineering practices—so your product feels premium and stays fast as it grows.

PROJECTS

ALGORITHMIC SOLUTIONS

2026

Algorithmic Problem Solving

Developed optimized solutions for complex algorithmic problems using C++. Focused on Data Structures, Dynamic Programming, and execution efficiency with high performance.

Discuss • C++ / Data Structures / Algorithms

DATA ANALYTICS

2026

Statistical Data Visualization

Built interactive dashboards and plots to analyze statistical datasets. Focused on transforming dry equations into clear, visual data insights using programming tools.

Discuss • Python / Data visualization

CREATIVE PORTFOLIO

2026

Personal portfolio & UI system

Designed and engineered a high-performance, modern portfolio showcasing responsive design and Glassmorphism. Optimized for perfect accessibility and speed metrics.

Discuss • HTML5 / CSS architecture / Vanilla JS
